Anjali Jani

Who am I

I'm a 33 year old Indian national, a fashion designer by profession. Extremely focused, hard-working, curious and communicative I enjoy both my personal and professional life. I believe I have a good sense of humor, love people and enjoy being a team player.

Where I live.

I live with my family which comprises of my mother, brother & sister-in-law in Vile Parle a western suburb of Mumbai

My profession

Born and raised in populous Mumbai, an alpha world city, ever since I was little, I remember being keenly interested in the fashion world, observing the trends and various national styles. Since over a decade now I have created an established brand ANJALI JANI .Besides, I have worked with other companies, export houses and designers. Having been exposed to the international markets I have had the good fortune of designing for buyers from diverse markets. I retail through some stores in Mumbai as well and have styled and designed costumes for Bollywood movies. Having graduated from The Fashion Institute of Design and Merchandising, LA, California in December 2001 with an Associate of Arts Degree with a major in Fashion Design. I was on the Honors Roll, with a GPA of 3.8. I also got my Bachelor of Arts Degree with major in English from Mithibai College of Arts, Mumbai, May 1997..

What I do in my spare time

My hobbies are movies, music, dance and travel. Swimming and designing accessories are my interests as well

Why I have participated in the GSE program

Visiting Mecca of Fashion, Paris for vocational exposure through GSE is a dream comes true for any fashion designer. I wish to blend the Indian fashion heritage with the perfection and the professionalism of the French. I hope to learn the relation between design, merchandising and marketing and how this determines ones market success. Subsequently my interest is to create stores across the globe and to impart education in fashion, a long standing dream of mine From this program, I wish to discover my capabilities, professionally and socially; and therefore go beyond the accomplishments I have been formally recognized for .I believe that "having learnt enough" is a myth. Through GSE maybe I shall experience a moment of epiphany, many eye opening discoveries .Most of all through this, I hope to build a link to my dreams, whilst enhancing social aspects through relevant activities When I look back in my life say, thirty years later, I would reflect on the GSE experience as a life enriching one and would owe my success to the people, places and things that helped me achieve my goals.
